The Handbook of Emotional Development is an essential resource for researchers, clinicians/professionals, and graduate students in child and school psychology, social work, public health, child and adolescent psychiatry, pediatrics, and related fields. This comprehensive handbook offers a comprehensive review of the research on emotional development. It examines research on individual emotions, including happiness, anger, sadness, fear, and disgust, as well as self-conscious and pro-social emotions. Chapters describe theoretical and biological foundations and address the roles of cognition and context on emotional development. In addition, chapters discuss issues concerning atypical emotional development, such as anxiety, depression, and actionable.This handbook offers a comprehensive review of the research on emotional development.
